Personal experience

Have you stayed at a monastery before? If yes, pls. give a brief account:

--

Do you practise meditation? If yes, please give some details:

--

Physical and mental health (information given will be treated confidentially).

Please inform us about any physical, mental or nervous disorders. The monastic community is not qualified to provide professional help, especially in cases of psychological problems. Therefore please state if you are doing psychotherapy and alike or have to take strong drugs.

When and if your visit has been confirmed, please note:

1. Try to arrive before the main meal (there is no meal in the afternoon!).
2. If you arrive in the afternoon, it is possible that no-one is available to show you around and help you settle in. Your name and room should be written on the blackboard near the entrance. The Dhamma Hall and library are available and you can help yourself to a drink in the dana room.
3. In case you have booked a long time beforehand, it might be a good idea to reconfirm a couple of days before your arrival.
4. Your stay at the monastery is at your own risk. The monastic community is not responsible for accidents or health problems that might occur during your stay.

I have read this application form and the guest handbook. I agree with the terms and conditions. I am willing to submit my mobile phone. I have a health insurance valid for the time of my stay at the monastery. I agree that the file will be stored internally. It am aware that: The data will not be processed and not made available to third parties (except cases of insurance liabilities). The data will be used for evaluation of the application and in case of emergency..
